

# J Mitra & Co

India's No. 1 In-Vitro Diagnostics Manufacturing Company

## Profile

---

J Mitra & Company is India's leading in-vitro diagnostics manufacturing company. The Company focuses on preserving human lives, by promoting healthcare through technology and innovation.

Incorporated in 1969, this research-based biotechnology company has completed 51 years of its mission to serve mankind. Apart from a pan-India footprint, J Mitra & Company are also one of the biggest exporter of diagnostics kits from India, and export to more than 45 countries across the entire globe.

J Mitra & Company is the pioneer in manufacturing and marketing of IVD test kits in India. It is the tradition of quality and seriousness of purpose that has led to its sterling and harmonious growth and an enviable recognition that extended far beyond its frontiers. The company manufactures a range of tests for infectious diseases like HIV, HBV, HCV, Dengue, Malaria, Typhoid, Leptospira in rapid and ELISA test formats. Their other products include a range of anti-Sera products and confirmatory tests like Western Blot for HIV

### Some of the Company's Industry Firsts

- Maximum patents in India – more than 55 patents
- First Indian Company to get drug manufacturing licenses for critical tests in both rapid and Elisa formats like HIV, HBV, HCV
- Introduced the technology of differential detection of HIV 1 and HIV 2 in single rapid kit format, a product which still is the market leader after two decades.
- Dengue Day 1 test (world-class IVD product) which have achieved no. 1 market share after its launch in 2010
- Recently introduced Fluorescence Immunoassay technology for quantitative and qualitative range of tests. The company manufactures HbA1c, Vitamin D, T3, T4, TSH and Dengue NS1 in FIA (Fluorescence immunoassay) range. These tests can be performed on state of the art analyser called i-Quant, developed in partnership with HTIC, IIT Madras.
